🎓 EDUCATION

Bachelor of Engineering Technology: Computer Science And Programming

JCT College of Engineering And Technology - Coimbatore, Tamilnadu
Scored 6.5 CGPA

2023-04 - 2023-08

Taalemi Academy
E-learning platform

At the forefront of Taalemi Academy, I led the establishment of an online skill development platform committed to unlocking individual potential. Our platform provides a wide range of courses, catering to various interests and skill levels, encompassing fields such as programming, communication, and entrepreneurship.

Responsibilities :
➢ Developed platform using Laravel , Kotlin.
➢ Managed whole Tech team.

Achievements :
➢ Successfully launched the platform.
➢ Showcased the project at Seamless Middle East 2023 (Dubai).

2022-01 - 2023-09

MicroCheck : LIMS & Test Booking
Test Booking App and LIMS

Created a LIMS and mobile app combo for seamless medical test booking, empowering phlebotomists and patients. The project boasts a robust admin dashboard for managing users, tests, reports, and more, streamlining the entire testing process.

Responsibilities :
➢ Developed platform using Laravel , Flutter.
➢ Creation of Back-end APIs for Chat-bots and Mobile App.
➢ Communication with client.

Achievements :
➢ Successfully launched the platform.

2021-06 - 2022-02

MicroHealth : Airport RTPCR Check Bot
Covid Vaccine Slot Booking Via WhatsApp

During the pandemic, many countries, including the UAE, mandated pre-departure COVID testing for travelers. To facilitate this process, we implemented a WhatsApp chatbot that allowed passengers to easily schedule their RTPCR tests before their departure, ensuring a smooth travel experience.

Responsibilities :
➢ Developed platform using Codeigniter, Botpress, WhasApp APIs.

Achievements :
➢ Manged huge user traffic .
➢ 4 Lakh users registred.

✓ Movies and Series
✓ Music

2020-04-2021-01

Lions Club - Club Management Application

Club & Event management ERP

Offers a comprehensive solution for efficiently managing and organizing club-related activities. With features such as event planning, member registration, financial tracking, and communication tools, this application simplifies the administrative tasks of clubs and enhances the overall club management experience

Responsibilities :
➢ Developed platform using PHP CodeIgniter.
➢ Managed Tech Team

Achievements :
➢ Successfully launched the platform.

2019-03-2020-04

Home2Labs

Medical test Booking platform

Developed a Health Check-up & Home Service platform that enables users to effortlessly book diagnostic tests with just a few clicks, emphasizing user-friendly convenience and access to essential medical tests from the comfort of their homes.

Responsibilities :
➢ Developed platform using PHP CodeIgniter.
➢ Developed APIs for mobile App.
➢ Managed whole project

Achievements :
➢ Successfully launched the platform.

Thank you for considering my application. I look forward to the opportunity to discuss how my skills and experience can contribute to your organization's success.
